

**PHYSICIAN** PROFILES

# OCULUS Facial Cosmetic Surgeons

H.P. Chip Cole, III, MD

OCULUS is a specialized center for facial cosmetic and reconstructive surgery of the eyes and face. The nationally recognized practice specializes in procedures to rejuvenate facial features and diminish signs of aging, and is dedicated to patient safety, comprehensive excellence in care, and natural-looking results. Dr. Cole offers a complimentary consultation to individuals with questions and concerns about available options and treatments. In addition to answering questions, Dr. Cole provides new patients with an examination, education, recommendations, and computer imaging. Whether you are looking to rejuvenate a particular feature or refresh your overall appearance, Dr. Cole will provide you the information you need to determine whether cosmetic enhancement is right for you.
